Games and animation graduate moving into AI-assisted game production. I generate game assets with local AI pipelines, build playable projects in Unreal, Unity and Godot, and work across 2D, 3D, UI and video.

EXPERIENCE

AI Asset Production Intern
LOST Studio Limited · Jul – Aug 2025
Generated 145 Chinese-mythology assets with a local ComfyUI pipeline for the studio's web game, and wrote a Python contact-sheet script and AutoHotkey shortcuts to speed up review.

Game Designer (Intern)
Genuine Studio Limited · Dec 2024 – Jan 2025
Voice-over, playtesting and a vertical promotional video for Haunted House 2, a Hong Kong visual novel released on Steam.

Video Editor Intern
Shine Skills Centre · Dec 2021 – Feb 2022
Edited promotional and motion-graphics videos, and designed four course leaflets in Photoshop.

SELECTED PROJECTS

Arcane Souls: Rebirth
Group leader · Unreal Engine 5.5, C++, Blueprint · AI-assisted · 2025 – 26
Two-person graduation game built around a Sekiro-style posture, deflection and deathblow system. Playable Windows alpha and a public development log.

Butterfly Garden
Unity, C# · Four-person final year project · 2022
Outstanding Project Award. Made three character models with textures, the UI, the logo and seven C# scripts.

ElfSurvivor and Cell Zero
Godot 4 · AI-assisted · 2025
Survivor roguelikes with random skills, bosses and up to 600 enemies on screen, playable in the browser on itch.io.

Patronus of Milito
Character art and UI · Unity, Android · Four-person · 2022
Drew all character art and UI for a real-time strategy mobile game.

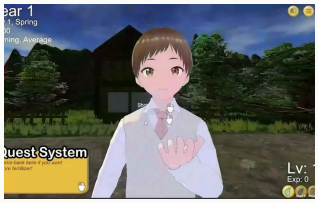

AI Podcast and Shorts Pipeline
Self-initiated · Local TTS, Python, agent skills · 2026
Turns research PDFs into character podcasts, then into captioned vertical shorts.

Scene Finder
HTML, JavaScript · Solo · AI-assisted · 2026
Dual-timeline video search technique with a study mode, CSV logging and a live demo.

Also built: Voidline (Godot arcade shooter), Slime Defensive War (solo Unity mobile RPG), Ultrace (Unity racing with Leap Motion hand control), Music Beat (SteamVR rhythm game), MotionDrum (Android rhythm game), Doodle (C++, OpenGL), projection installation (Technical Director, MadMapper), The Last Meter (Figma AR app prototype).

AI assets · LOST Studio

Unreal · Arcane Souls

Unity · Butterfly Garden

Godot · Cell Zero

3D · Winter animation

2D · Berserker Leukocyte

EDUCATION

BSc Creative Media
City University of Hong Kong
Expected early 2027

Higher Diploma in Games and Animation
IVE (Sha Tin), 2020 – 22
Distinction, GPA 3.57

TOOLS

Engines Unreal, Unity, Godot

3D Maya, Blender, 3ds Max

AI ComfyUI, Claude Code, Codex, MCP

Media Photoshop, Premiere Pro, After Effects, Audition, Figma

Code C#, C++, Python, JavaScript, Git

AWARDS AND LANGUAGES

Awards
Outstanding Project Award, IVE 2022
Best Director (Secondary), Tai Po Anti-Drug Short Film Competition 2016

Languages
Cantonese, Mandarin, English
